PROFILE

I have experience in software development. I have worked using the Scrum methodology, actively participating in the development cycle of various applications and systems, including the creation of new features, evolutionary maintenance, and improvements. Additionally, I have independently developed projects from scratch. My adaptability has been key to successfully integrating into different projects and teams.

PROFESSIONAL SOFTWARE EXPERIENCE

TELECOM COMPANY

2014 - 2016

Technical Service

Technical service to internet and telephone customers.

NEPS COMPANY

2022 - 2024

Developer

C# / .Net / .Net Core / JS / Js-ext / Mvc / Web Api / MS Sql Server.

Achievements

I developed a dating app with the idea of repurposing it to create another app with a different business logic—an app for exchanging goods and services—and I succeeded.

I wrote clean, efficient, and maintainable code.

I performed testing.

I collaborated on code reviews.

I solved and debugged software issues.

I integrated applications with third-party databases and APIs.

EDUCATION AND PROJECTS

F.A.M.A.F National University of
Cordoba, Argentina
Bachelor of Computer Science

Higher Technical Institute Cordoba

Certified Software Developer
2020 - 2023
